Thomas Corners Road Bridge Replacement

Citizen Task Force

April 24, 2013
Thomas Corners Road Bridge Location
Easements Requested by Cattaraugus County
1979 Aerial Radiation Survey
Buttermilk Creek Preliminary Survey Areas
Radiological characterization work is expected to be completed in early May.

Cattaraugus County is expected to begin construction work later in May after the results of the radiological characterization are processed.

NYSERDA plans on supporting this project with radiological safety coverage.

The level of the radiological safety coverage will be informed by the results of the radiological characterization.
