Johnny W. Reising  
Fernald Project Manager  
U.S. Department of Energy  
Ohio Field Office  
175 Tri-County Road

Dear Mr. Reising:

Subject: February 9, 2006 Fernald Site Tour

We are writing to express our sincere appreciation for sharing your time and expertise as our host of the Fernald site tour. The day was informative from many perspectives. Situated in an area geographically similar to the West Valley site (rural), it was encouraging to see a clean up that is so close to reaching the designed end-state, an undeveloped park with an emphasis on wildlife. From the redevelopment perspective, the proposed conversion of the on-site warehouse into a multi-use educational center seems like a natural complement to the new park.

Thank you again for the tour and information. We wish you much luck on completing your mission at Fernald.

Sincerely,

John Pfeffer

Sue Smiley  
Team Leader  
Office of Logistics Management  
U.S. Department of Energy  
250 East Fifth Street  
Cincinnati, OH 45202

Dear Ms. Smiley:

Subject: February 10, 2006 Mound Site Tour

We are writing to express our sincere appreciation for sharing your time and expertise during our visit to the Mound site. The day was informative from many perspectives. It was encouraging to see the site clean up work proceed at the same time significant progress is being made towards the development of the Mound Advanced Technology Center. The principles and lessons learned from the project provided us all with a spark of enthusiasm knowing that a vision can, indeed, become a reality.

Thank you again for the information. We wish you much luck on completing your mission at Mound.

Sincerely,

John Pfeffer

Dear Mr. Baillieul:

Subject: February 10, 2006 Mound Site Tour

We are writing to express our sincere appreciation for sharing your time and expertise on the Battelle site cleanup in Columbus during our visit to the Mound Advanced Technology Center. Your telling of the history of the Battelle enterprise was fascinating. We are encouraged that the site clean up is proceeding well.

Thank you again for the information. We wish you much luck on completing your mission at Battelle-Columbus.
